Movable isolating transformer 400 V / 230 V, IP54, class II, 10 kVA

Mobile/movable isolating transformer for use on building sites or on revision works. Housing, IP54, class II, on castors, with transport lugs. Input 3 x 400 V with 16 A-CEE plug. 3 outputs 230 V with 16 A Schuko socket (continuous nominal power 14.5 A each). Secondary automatic circuit breaker for each socket.

Type-no.	210 491 010
Type	Isolating transformer
Intended use	Safe operation of electrical tools on buildings sites
Voltage	Primary 3 x 400 V / Secondary 3 x 230 V
Power	10 kVA (10000 VA)
Input	Built-in CEE plug (16 A)
Output	3 x Schuko socket outlet (16 A)
Protection class	IP 54
Size / weight	630 x 400 x 605 mm / 133 kg
Approvals	CE
Origin	Made in Germany
Standard delivery time	1-2 days
