

## Three phase transformer 160 kVA

Three phase transformer 160 kVA, in-/output voltages according to customer's specifications, e.g. 690 V, 500 V, 480 V, 400 V, 230 V, 208 V, 200 V, 120 V, 110 V. Voltages from 10 V to 1000 V possible. Optionally with housing IP23 or IP54 (higher IP rating on request)

*(Photo shows similar transformer but with different power)*

|                        |                                                                           |
|------------------------|---------------------------------------------------------------------------|
| Type-no.               | DTT1600                                                                   |
| Type                   | Isolating transformer                                                     |
| Voltage                | e.g. 690 V, 500 V, 480 V, 400 V, 380 V, 230 V, 208 V, 200 V, 120 V, 110 V |
| Power                  | 160 kVA (160000 VA)                                                       |
| Input                  | Terminal clamps                                                           |
| Output                 | Terminal clamps                                                           |
| Size / weight          | approx. 730 x 480 x 730 mm / approx. 780 kg                               |
| Approvals              | CE                                                                        |
| Origin                 | Made in Germany                                                           |
| Standard delivery time | 3-4 weeks                                                                 |

*Measures and weight are non-binding example values. Final values after concrete calculation of the transformer*
