

## Single phase transformer 16000 VA

Single phase transformer 16000 VA, in-/output voltages according to customer's specifications, e.g. 690 V, 500 V, 480 V, 400 V, 230 V, 208 V, 200 V, 120 V, 110 V, 100 V, 42 V, 24 V, 12 V. Voltages from 10 V to 1000 V possible. Optionally with plastic or metal housing, IP23 or IP54 (higher IP rating on request)

*(Photo shows similar transformer but with different power)*

|                        |                                                                               |
|------------------------|-------------------------------------------------------------------------------|
| Type-no.               | WTT1600                                                                       |
| Type                   | Isolating transformer                                                         |
| Voltage                | e.g. 480 V, 400 V, 230 V, 208 V, 200 V, 120 V, 110 V, 100 V, 42 V, 24 V, 12 V |
| Power                  | 16 kVA (16000 VA)                                                             |
| Input                  | Terminal block                                                                |
| Output                 | Terminal block                                                                |
| Size / weight          | approx. 320 x 255 x 500 mm / approx. 125 kg                                   |
| Approvals              | CE                                                                            |
| Origin                 | Made in Germany                                                               |
| Standard delivery time | 3-4 weeks                                                                     |

*Measures and weight are non-binding example values. Final values after concrete calculation of the transformer*
